CHELOREX[®]

Synergistic Oral Chelation Formula

FORMULA DG81L • DIETARY SUPPLEMENT/32 FLUID OZ

Designed for
the "Less than enthusiastic" pill taker
young and old alike

© Science Formulas, Inc. 2007

NEW LIQUID CHELOREX[®]
Safe, Flexible and Convenient Dosing
Reduces Free Radicals and Oxidative Stress†
Passes Through the Blood Brain Barrier†
Protects Liver and Kidney Function†
Shown to Mobilize 16 Heavy Metals†
Protects Against Heavy Metal Reabsorption†
Safe For Use With Dental Amalgams in Placet

This pleasant tasting liquid supplement is formulated with the same chelation promoting ingredients as the clinically tested CHELOREX[®] caplets. In addition,

CHELOREX[®] Liquid enhances bio-availability by using coenzyme forms of vitamins, pre-extracted nutrients and natural carriers to facilitate efficient uptake of nutrients. Premium methyl donors B6 and B12 as coenzymal Pyridoxal 5' Phosphate & Methylcobalamin plus Folic Acid, CoQ10, D-ribose & Potassium Phosphate are added to enhance cellular ATP production. Malic Acid, Cranberry and Milk Thistle Extracts provide additional chelation support.†

ADULT DIRECTIONS: For Maximum Results:

Morning Dosage: 1 Tbsp. per 45lbs. of body weight (Up to 4 Tbsp.)
 Evening Dosage: 1 Tbsp. per 45 lbs. of body weight (Up to 4 Tbsp.)
 Do not exceed 8 Tbsp. (4 fl. oz.) in any 24 hour period.

Helpful Conversions:

3 teaspoons (45lb dose) = 1 Tablespoon, 2 Tablespoons (90lb dose) = 1 oz

Examples:

A 180 lb. (and above) person would take 2-4 Tbsp. (1-2oz) in morning & 2-4 Tbsp. (1-2oz) in evening.
 A 120 lb. person would take 1.5- 3 Tbsp. (1.5oz) in morning & 1.5-3 Tbsp. (1.5oz) in evening.

Drink: 6-8 glasses of pure water per day.

Eat: A whole food, high fiber diet with ample protein (whey is recommended) and a minimum of refined carbohydrates. For the most effective results, continue the program for a minimum of 90 days or as directed by a qualified physician.

Supplements: A high quality vitamin-mineral supplement such as Science Formulas[®] MULTI/Broad Spectrum Chelation Support Formula is recommended.

CAUTION: Do not consume if tamper-resistant seal is disturbed or broken. Do not consume if you are allergic to any ingredients. Not for use by children under 15 years of age, pregnant or nursing women. If you are taking or require medication, seek the advice of a qualified health care practitioner before using this product. Keep lid tightly closed and out of the reach of children. Do not drink from cap or bottle and do not touch lips or fingers to the liquid to avoid contamination of contents. **REFRIGERATE AFTER OPENING!**

Chelorex[®] Liquid is manufactured in a facility that operates under strict Good Manufacturing Practices (GMP) and has earned the coveted NSF GMP "A" Rating and approval from The Islamic Food and Nutrition Council of America (Halal). All raw ingredients are assayed for purity and strength before manufacture as well as post manufacture testing.*

Supplement Facts

Serving Size: 4 Tablespoons (2 Fluid Ounces)**
 Servings per Container: 16

	Amount Per Serving	% Daily Value
Calories	120	6%
Total Carbohydrates	6.2 g	2%
Sugars	6.2 g	**
Vitamin C (ascorbic acid)	856 mg	1460%
Vitamin E (as D-alpha tocopherol with mixed tocopherols)	200 IU	666%
Vitamin B6 (as pyridoxal 5' phosphate)	40 mg	2000%
Folic Acid	800 mcg	200%
Vitamin B12 (as methylcobalamin)	60 mcg	1000%
Magnesium (as magnesium lactate gluconate)	46 mg	12%
Zinc (as zinc gluconate)	10 mg	66%
Selenium (as sodium selenite)	200 mcg	286%

CHELOREX [®] Proprietary Blend	4.4 g	**
MSM (Methylsulfonylethane), L-Glutamine, Taurine, Xylitol, Cracked Cell Chlorella Extract, D-ribose, Cilantro Leaf Extract, Stevia Leaf Extract, Malic Acid, Potassium Phosphate, Alpha-Lipoic Acid, Cranberry Extract, Milk Thistle Extract, Luo Han Guo Fruit, Coenzyme Q10 and N-Acetyl-L-Cysteine.		

* % Daily Value (D.V.) Based Upon 2000 Calorie Diet
 ** Daily Value Not Established, *** Based Upon 180 lb. Person Dosage

OTHER INGREDIENTS: Purified water, crystalline fructose, vegetable glycerin, xanthan gum, natural flavors, potassium sorbate (to protect freshness) and sodium benzoate (to protect freshness)

CHELOREX[®]

Synergistic Oral Chelation Formula

FORMULA DG81L • DIETARY SUPPLEMENT/ 32 FLUID OZ

Designed for
the "Less than enthusiastic" pill taker
young and old alike

Chelorex[®] Liquid Ingredients and Function

Chelorex[®] was formulated to work synergistically to mobilize toxic heavy metals from within the body and protect the body from heavy metal reabsorption and redistribution. Below is a list of the 24 individual ingredients in the current Chelorex[®] (DG81L) formula, along with a brief summary of their functions.

Cilantro Leaf Extract

Mobilizes toxic metals from the central nervous system and other tissues.

MSM (methylsulfonylmethane)

Enhances permeability of cell membrane.

Taurine

Enhances biliary excretion, protects CNS, retina and white blood cells.

L-Glutamine

Restores and preserves gastro-intestinal function, enhances hair excretion and is a glutathione precursor.

Vitamin E (as D-alpha-tocopherol w/ mixed tocopherols)

Antioxidant and also supports thyroid function.

Magnesium (as magnesium lactate gluconate)

Aids in chelation, replaces lost or chelated magnesium and protects against free radical damage.

Cracked Cell Chlorella Extract

Traps toxic metals in GI tract and behaves as ion exchange resin.

Alpha-Lipoic acid

Binds intracellular toxic metals, quenches free radicals and raises glutathione levels.

NAC (N-Acetylcysteine)

Binds toxic metals, raises glutathione levels and acts as an antioxidant.

Vitamin C (as ascorbic acid)

Promotes excretion of toxic metals, is an essential antioxidant and supports thyroid function.

Zinc (as zinc gluconate)

Stimulates metallothionein and reduces toxic metals.

Selenium (as sodium selenite)

Enhances chemical detoxification, reduces toxicity of metals, and is necessary for conversion of T4 to T3 for normal thyroid function.

Vitamin B6 (as pyridoxal 5' phosphate)

Main biologically active form of vitamin B6. Key to amino acid metabolism including methionine, which converts to cysteine, which is a precursor to glutathione.

Vitamin B12 (as methylcobalamin)

For cellular energy, mercury is known to interfere with B12 absorption. Also involved in the synthesis of precursors to glutathione.

Folic Acid

Key vitamin in cellular function and repair. Also involved in the synthesis of precursors to glutathione.

D-ribose

Helps in the recovery of depleted ATP level and aids in muscle tissue oxygenation.

Stevia Leaf Extract

Plant based calorie free sweetener that aids in the management of blood sugar levels.

Malic Acid (from apples)

Chelator not found in our caplet formulation, a key intermediate in the Krebs cycle. Aids in muscle tissue oxygenation.

Potassium Phosphate

Instrumental in cellular production of ATP.

Cranberry Extract (4 to 1 extract)

High in antioxidants and contains Malic Acid.

Milk Thistle Extract (80% Silymarin)

Helps to protect the liver from toxins and pollutants by preventing free radical damage.

Luo Han Guo Fruit

Zero calorie sweetener with antioxidant activity.

Coenzyme Q10

Powerful antioxidant found in virtually every cell in the body, key role is in producing ATP.

Xylitol

A naturally occurring sweetener. Studies indicate absorption promoting qualities with certain essential minerals.

How Much Chelorex[®] Liquid Do You Need?

Chelorex[®] has flexible, convenient body weight based dosing. Use the chart below to determine the number of bottles needed based on your body weight to follow the Chelorex[®] protocol for 90 total doses (45 doses 2x per day).

Body Weight	Amount of Fluid oz. per Dose	Amount of Fluid oz. for 90 Doses	Amount of Chelorex [®]
90-134 lbs.	1 Fluid oz.	90 Fluid oz.	3 Bottles
135-179 lbs.	1.5 Fluid oz.	135 Fluid oz.	4-5 Bottles
180 lbs. & above	2 Fluid oz.	180 Fluid oz.	5-6 Bottles

Recommended Protocol For the Systematic Use of Chelorex Liquid[®]

1. Hair Analysis prior to starting (see separate "sfi_hair_analysis_2007" flyer).
2. 90 doses of Chelorex[®] Synergistic Oral Chelation Formula† (see "Recommended Adult Directions" front of flyer) and accompanying doses of our MULTI Chelation Support Formula† (see separate "sfi_multi_2007" flyer).
3. 30 day resting period (no Chelorex[®] at this time and continue MULTI).
4. Post Hair Analysis (see separate "sfi_hair_analysis_2007" flyer)
5. Depending upon desired results you may continue with a maintenance dose (see "Recommended Adult Directions" front of flyer), start another 90 dose round or what is directed by your health care provider
